

*In one of Germany's  
most beautiful breweries ...*

**\*Simone, Renate  
and Friederike Strate**

## **...brewing beer is a woman thing.\***

If one did not know better, one would regard the Strate private brewery, at the edge of the historic city of Detmold, as a castle brewery. Three women whose passion is brewing beer live and work here. But that's not all: with much love for detail they want to make their brewery the most beautiful in Germany. Founded in 1863, this private brewery with 33 employees is now in the 5th generation as a private company run by Simone, Renate and Friederike Strate.

Their speciality is beer from the non-polluting swing stopper bottle. Winners of an annual DLG award and a prize for the best equipment, their fine Detmold beer specialities include Detmolder Landbier, Weizen and Kellerbier.

In the last few years the Strate private brewery has developed into the second-biggest swing stopper bottler in Germany. The distribution area extends 120 km around the mash tun. In accordance with the guiding principle "in the region - for the region" over 800 domestic associations are supported.

For this regional commitment and for its untiring dedication to environmental protection the Strate family was awarded the "entrepreneur prize of the year 2000 Ostwestfalen-Lippe".

Cheers!
